Section :- 1 – About Jal Jeevan Mission

1.1 Vision

Every rural household has drinking water supply in adequate quantity of prescribed quality on regular and long-term basis at affordable service delivery charges leading to improvement in living standards of rural communities.

1.2 Mission

Jal Jeevan Mission is to assist, empower and facilitate:

- i.) States/ UTs in planning of participatory rural water supply strategy for ensuring potable drinking water security on long-term basis to every rural household and public institution, viz. GP building, School, Anganwadi centre, Health centre, wellness centres, etc.;
- ii.) States/ UTs for creation of water supply infrastructure so that every rural household has Functional Tap Connection (FHTC) by 2024 and water in adequate quantity of prescribed quality is made available on regular basis;
- iii.) States/ UTs to plan for their drinking water security;
- iv.) GPs/ rural communities to plan, implement, manage, own, operate and maintain their own in-village water supply systems;
- v.) States/ UTs to develop robust institutions having focus on service delivery and financial sustainability of the sector by promoting utility approach;
- vi.) capacity building of the stakeholders and create awareness in community on significance of water for improvement in quality of life;
- vii.) in making provision and mobilization of financial assistance to States/ UTs for implementation of the mission.

1.3 Objectives

The broad objectives of the Mission are:

- i.) to provide FHTC to every rural household;
- ii.) to prioritize provision of FHTCs in quality affected areas, villages in drought prone and desert areas, Sansad Adarsh Gram Yojana (SAGY) villages, etc.;
- iii.) to provide functional tap connection to Schools, Anganwadi centres, GP buildings, Health centres, wellness centres and community buildings;
- iv.) to monitor functionality of tap connections;
- v.) to promote and ensure voluntary ownership among local community by way of contribution in cash, kind and/ or labour and voluntary labour (shramdaan);
- vi.) to assist in ensuring sustainability of water supply system, i.e. water source, water supply infrastructure, and funds for regular O&M;
- vii.) to empower and develop human resource in the sector such that the demands of construction, plumbing, electrical, water quality management, water treatment, catchment protection, O&M, etc. are taken care of in short and long term; and
- viii.) to bring awareness on various aspects and significance of safe drinking water and involvement of stakeholders in manner that make water everyone's business.

1.4 Components under JJM

The following components are supported under JJM:

- i.) development of in-village piped water supply infrastructure to provide tap water connection to every rural household;
- ii.) development of reliable drinking water sources and/ or augmentation of existing sources to provide long-term sustainability of water supply system;
- iii.) wherever necessary, bulk water transfer, treatment plants and distribution network to cater to every rural household;
- iv.) technological interventions for removal of contaminants where water quality is an issue;
- v.) retrofitting of completed and ongoing schemes to provide FHTCs at minimum service level of 55 lpcd;
- vi.) greywater management;
- vii.) support activities, i.e. IEC, HRD, training, development of utilities, water quality laboratories, water quality testing & surveillance, R&D, knowledge centre, capacity building of communities, etc.; and
- viii.) any other unforeseen challenges/ issues emerging due to natural disasters/ calamities which affect the goal of FHTC to every household by 2024, as per guidelines of Ministry of Finance on Flexi Funds.

1.5 Institutional Mechanism

JMM is a time bound mode programme and needs robust institutional framework for its successful implementation to achieve the stated goal. Hence, a four-tier institutional mechanism is to be set up at National, State, District and Village level, implementation support agencies, sector partners etc.

1.6 State level – State Water and Sanitation Mission (SWSM)

The concept of State Water and Sanitation Mission (SWSM) is tasked for coordination, convergence and policy guidance at the State level, headed by Chief Secretary of the State. The SWSM may be registered as a society as decided by the respective State Government/ UT Administration. The State Governments would provide necessary powers to the SWSM for successful implementation of JJM. The SWSM may be further strengthened to achieve the objective of JJM. SWSM, a state level institution headed by Chief Secretary with Principal Secretary/Secretary in-charge of PHED/ RWS Department as Mission Director is the organisation responsible for implementation of JJM in the state.

1.7 District Water and Sanitation Mission(DWSM)

At the district level, DWSM is responsible for overall implementation of JJM. DWSM will be headed by Deputy Commissioner/ District Collector (DC).

1.8 Data and documentation centre

Under the mission, a Data and Documentation centre will be set up to monitor its implementation, collection of information from States and to process the information. The centre will be primarily served by National Informatics Centre (NIC). The NIC would act as IT consultant both at national as well as state level.

1.9 Financial Planning and Funding

JMM is a time bound mode programme and for successful implementation needs robust financial planning and timely funding, mobilization of adequate resources and prudent utilization of funds are pre-requisites. In this direction, the SWSM/ DWSM will prepare year-wise financial plan by pooling all the available resources for rural drinking water supply like the Central fund, State fund, other programmes, MPLADS, MLALADS, DMDF, CSR fund, donations, etc.

Central financial assistance for Jal Jeevan Mission will have two sources namely Gross Budgetary Support (GBS) and Extra Budgetary Resources (EBR). The fund sharing pattern of the mission will be 50:50 for the state of Chhattisgarh.

Funding Pattern: Several sub-components/ sub-missions that were part of erstwhile NRDWP will also be

S. No.	Sub-components/ sub-missions under JJM	Centre: State funding pattern
1.	i.) Coverage i.e., infrastructure for Har Ghar Jal (in terms of FHTCs provided to rural households)	<ul style="list-style-type: none"> • 100:0 for UTs without legislature • 90:10 for NE & Himalayan States & UTs with legislature • 50:50 for other States
	ii.) Support Activities iii.) WQM&S	<ul style="list-style-type: none"> • 100:0 for UTs without legislature • 90:10 for NE & Himalayan States & UTs with legislature • 60:40 for other States
2.	World Bank Assisted Rural Water Supply and Sanitation Project – Low Income States (RWSSP-LIS) in four States namely Assam, Bihar, Jharkhand and Uttar Pradesh	<ul style="list-style-type: none"> • 50% external assistance routed through JJM • 33% from coverage component released under JJM (erstwhile NRDWP share) • 16%* State contribution • 1% community contribution <p>*16% averaged out figure considering all four States.</p>
3.	JE-AES affected high priority districts (60 districts)	<ul style="list-style-type: none"> • 90:10 for Assam • 50:50 for other States
4.	NWQSM in Arsenic and Fluoride affected habitations	<ul style="list-style-type: none"> • 90:10 for NE & Himalayan States • 50:50 for other States

funded along with Functional Household Tap Connection (FHTC) as per following details:

1.10 Fund flow

SWSM will open a single nodal account in any scheduled commercial bank. SWSM will obtain details from these banks operational in State headquarters on services like PFMS compliance necessary for JJM implementation. The releases by the Government of India to the State Government will be made to their State treasuries from where States will be transferring the fund to the single nodal account of SWSM within 15days along with the corresponding matching State share. The SWSM can use the existing single nodal account of erstwhile NRDWP or may open a newaccount in any scheduled commercial bank at the State Headquarters for maintaining the nodal account under JJM, in case there is no single nodal account.

Any change in the nodal account will be allowed only with the concurrence of Department/ National Mission.A written undertaking from the Bank needs to be made available to the effect that the bank will follow the Guidelines of Government of India for making payments from Department/ National Mission Fund. The SWSM will communicate the details of the Bank branch, IFSC code and the account number to Department/ National Mission. Bank will allow transaction in nodal accountonly when the request for making the transaction isreceived through PFMS mode and if done throughtreasury, same will be captured/ reflected in PFMS system by making suitable interface between concerned State treasury and PFMS systems and then only transaction be allowed. Bank will agree to abide by the instructions issued from time to time by Department/Mission regarding operation of the Account. The Integrated Management Information System (IMIS) software would support Accounting System and would be enabled to allow rural water supply department/DWSM and Bank branch concerned to make data entry online for the transactions to be made by them.

Money accruing as interest will be credited to the same account and reflected in the Utilization Certificate (UC)of the relevant year. The expenditure out of the interest amount will be made on items of work as permitted in the guidelines. Any deviation of expenditure will be guided by the instructions/guidelines to be issued by Department/ National Mission from time to time. The Bank will intimate to the SWSM the interest amount credited by it to theaccount on quarterly basis.

The State Government/ SWSM will decide about the matching fund as per the prescribed funding pattern. On receipt of the Central and State share of JJM by the SWSM in the single nodal account, its allocation among the Districts, based on the annual district action plans(DAP) finalized by the respective DWSM shall be made within two weeks. Based on the allocation, a drawl limit will be set for every district by the DWSM and it will authorize districts to raise payment advice and payment will be made from Single Nodal Account.

DWSM will get the work implemented as per the DAP and fund available at the district level, through Gram Panchayat and/ or its sub-committee, i.e. VWSC/ Paani Samiti/ User Group or PHED/ RWS Department as the case may be. After execution of the work, PHED/ RWS Department will raise the bill to DWSM/ SWSM as the case may be, who in turn will get the work inspected by an empanelled third-party agency. Thereafter, subject to due satisfaction of quality and quantity of work performed, the DWSM/ SWSM, as the case may be, will arrange to make the payments to the agency. The payment advice in PFMS mode will be raised by the DWSM/ SWSM to make payment to the agency for the executed works subject to fund allocation/ drawl limit set for the district by DWSM for that particular year. Payment advice generated through treasury mode will only be allowed only if the same is captured in PFMS system, by making suitable interface between concerned State treasury and PFMS. The payment advice will be sent by DWSM/ SWSM in PFMS mode to make the payments from Single nodal account to the account of concerned agency as authorized. No advance to any other account be made except to that of executing agency towards mobilization advance as per contract.

Executive Engineer,
Public Health Engineering Department &
Member Secretary, DWSM,
District Mungeli

Section:-2 -Information to Bidders

1.11 Proposal Submission and Evaluation

- a) The proposal must be in two parts, each placed and sealed in a separate envelope appropriately marked as “Envelope A, “Envelope B”. Both these envelopes, must be put in a larger envelope addressed to The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli and submitted at the address mentioned in the data sheet. duly marked as Expression of Interest (Eol) from national and international NGOs / Self Help Groups (SHGs)/ CBOs/ VOs/ similar Social Development Oriented Organizations/Foundations/Trusts for empanelment as Implementation Support Agencies (ISA) under Jal Jeevan Mission being implemented by District Water and Sanitation Mission
- b) “Envelope A” must be superscripted as “Envelope A: Proposal for Expression of Interest (Eol) from national and international NGOs / Self Help Groups (SHGs)/ CBOs/ VOs/ similar Social Development Oriented Organizations/Foundations/Trusts for empanelment as Implementation Support Agencies (ISA) under Jal Jeevan Mission being implemented by District Water and Sanitation Mission. Technical Bid” and it must contain all supporting documents, allotment letters, declaration etc. along with annexure as specified to help the committee to assist in technical evaluation.
- c) “Envelope B” must be superscripted as “Envelope B: Expression of Interest (Eol) from national and international NGOs / Self Help Groups (SHGs)/ CBOs/ VOs/ similar Social Development Oriented Organizations/Foundations/Trusts for empanelment as Implementation Support Agencies (ISA) under Jal Jeevan Mission being implemented by District Water and Sanitation Mission. Financial Bid” and it must contain the financial bid on the bidder’s letter-head prepared according to format given.
- d) The Financial Bid must be clear and unconditional. Unclear and/or conditional financial bids are liable to be rejected. Bidders are advised to read instruction for preparing financial forms carefully before submitting its financial bid.
- e) From the time the Proposals are opened to the time the contract is awarded, the bidder should not contact the Client on any matter related to its Technical and/or Financial Proposal. Any effort by a bidder to influence the Client in examination, evaluation, ranking of Proposals or recommendation for award of contract may result in rejection of the bidder’s Proposal.
- f) The Envelope A shall be opened first.

1.12 Evaluation of Proposals

The eligibility criteria will be first evaluated as defined in Request for Proposals for each bidder. Detailed technical evaluation will be taken up in respect of only those bidders, whomeet with the prescribed eligibility criteria. JJM team will be responsible for evaluation and ranking of Proposalsreceived. JJM team will evaluate and rank the Technical Proposals on the basis ofProposal’s responsiveness to the EOI using the evaluation criteria and points systemspecified. Each Technical Proposal will receive a technical score. A Proposal shall be rejected if it does not achieve the prescribed minimum technical.

1.13 Evaluation of Technical Proposals

Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli on behalf of Governor of Chhattisgarh on the basis of technical proposals submitted by bidders shall carry outthe evaluation of technical proposals of all the bidders. The qualifying marks of thebidders shall be informed about the date andtime of opening of their financial proposals. Their representatives may attend theopening of financial proposal (after production of an authority letter from therespective bidder).

1.14 Minimum Eligibility Criteria

- Conditions of Pre-Qualification and Eligibility of Application
- Applicants must read carefully the minimum conditions of eligibility (the “Conditions of Eligibility”) provided herein. Proposals of only those Applicants who satisfy the Conditions of Eligibility will be considered for evaluation.
- To be eligible for evaluation of its Proposal, the Agency shall fulfil the following.

Sl.No.	Essential Qualifications	Required documents (Proof/Declaration)	Remark
1	A minimum 3 years' experience as a registered organization for organizations under 4(a) including organizations under Registration of Societies Act 1860, or a Public Trust registered under Indian Trust Act 1982 or a corporation registered under Section 8 Companies Act. Or, experienced Self-Help Groups (SHGs) within districts. 7	Last 03 years duly audited and properly maintained accounts and Income Tax Return and published annual report, reflecting minimum average turnover of Rs. 5 lakhs in last 03 years.	CA certificate with UDIN number clearly mentioned for FY 2017-18, 2018-19 and 2019-20.	
8	Organization should not have been black listed by any authority or involved in fraudulent activities.	Declaration on Notary Affidavit	The organization may declare this point on notary affidavit along with point no. 2

Note: Agency satisfying all the above criteria will only be eligible for marking criteria and further

Technical Proposal Evaluation Criteria

Technical Proposal will be evaluated in the following criteria:

S.N	Technical Parameters	Allotted Marks	Marking Criteria	Mandatory sectional cut-off score	Self assessment score of the firm supported by the certificate
A.	Experience of the Firm	45			
1	Registration of organization for organizations under 4(a) including organizations under Registration of Societies Act 1860, or a Public Trust registered under Indian Trust Act 1982 or a corporation registered under Section 8 Companies Act.Or, experienced Self-Help Groups (SHGs) within districts.	05	Registered before 3-5 yrs. = 03 marks Registered before 5-10 yrs. = 04 marks Registered before more than 10 yrs. = 05 marks	3 marks	
2	The experience of organization in the below mentioned fields:- 1. Drinking water and communitymanagement. 2. Waterquality. 3. Rainwater harvesting/ recharge, water resources management. 4. Capacity building and awarenessgeneration. 5. Public healthengineering. 6. Gender &Water.	10	3- 5 yrs.- = 07 marks >5- 10 yrs.- = 08marks more than 10 yrs.- = 10 marks	7 marks	
3	The experience of the organizations' chairpersons/board/or relevant authority who is proposed to lead the initiative, in the above-mentioned fields (Sl. No.- 2).	10	3- 5 yrs.- = 07 marks >5- 10 yrs.- = 08marks more than 10 yrs.- = 10 marks	7 marks	
4	The No. of GPs in which related activities of above-mentioned fields (Sl. No.-2) implemented.	10	20-50 G.P. = 07 Marks >50-100 G.P. = 08 Marks Above 100 G.P.= 10 Marks	7 marks	
5	Experience of using Participatory Rural Appraisal (PRA) techniques and other communication tools in community mobilization. (Work orders/MoAs/Completion certificates should clearly mention PRA activities)	10	03-05yrs.- = 07 marks >05- 10 yrs.- = 08 marks morethan10yrs.-= 10 marks	7 marks	

B.	Financial Capability	10			
1	Average annual turnover of last 03 years (FY. 2018-19, 2019-20 and 2020-21)	10	5 -10 lakh = 06 Marks >10 -25 lakh = 08 Marks Above 25 lakh = 10 Marks	6 marks	
C.	Manpower Capability (all the below mentioned resources shall be mutually exclusive resources i.e. a resource will not be categorized under multiple categories)	20			
1	No. of senior resources (having Graduate\Post Graduate degree and 03 years exp.)	05	upto 5 = 02 Marks >5-10 = 03 Marks above 10 = 05 Marks	2 marks	
2	No. of IEC/similar resource (having Graduate\Post Graduate degree and 03 years exp.)	03	upto 02 = 02 Marks above 02 = 03 Marks	2 marks	
3	Capacity Building//similar resource (having Graduate\Post Graduate degree and 03 years exp.)	02	upto 02 = 01 Marks above 02 = 02 Marks	1 mark	
4	Coordinators (having Graduate degree and 03 years exp.)	04	upto 05 = 02 Marks 05-10 = 03 Marks above 10 = 04 Marks	2 marks	
5	Community Workers (Literate, having good communication skill and 03 years exp.)	06	upto 50 = 02 Marks 50-100 = 04 Marks above 100 = 06 Marks	2 marks	
D.	Regional Experience	15			
	Organizations having experience of implementing projects in the state of Chhattisgarh		upto 5 = 03 Marks 5-10 = 04 Marks above 10 = 05 Marks	3 marks	
	Organizations having experience of implementing projects in Chhattisgarh and Other State.		upto 5 = 06 Marks 5-10 = 08 Marks above 10 = 10 Marks	6 marks	
E.	Presence in the State	10			
	Organizations having branch offices in separate mutually exclusive administrative districts of Chhattisgarh (Lease Agreements/Trade license etc. shall have to be provided mandatorily as proof)		upto 10 = 05 Marks >10-20 = 07 Marks above 20 = 10 Marks	5 marks	

Note :

- (1) The participant applying for EOI shall evaluate itself that minimum marks as above shall be 60 if evaluated marks is less than the cutoff of 60 marks or it has less score in any of the mandatory sectional cutoff the firm will be disqualified.
- (2) The participant shall self assess and give score to itself for every point and it shall attach Xerox certificate related to it at every point (with the point mentioned with on the Xerox), For every point Xerox of the certificate shall be attached (even if the same certificate is repeated). The DWSM will evaluate the score based on this technical proposal only. Participant shall ask for presentation about the self assessment.

1.15 Evaluation of Financial Proposals & Award of work

1.15.1 The participants should quote their offer online. Online rate of eligible participant shall be opened as per the key dates.

1.15.2 After the lowest rates, approved by the DWSM District Mungeli All the participant, willing to execute the work, have to give their consent for empanelment. Accordingly, the empaneled NGOs / Self Help Groups (SHGs)/ CBOs/ VOs/ similar Social Development Oriented Organizations/Foundations/Trusts will be awarded works.

1.15.3 It is herewith clarified that all the qualified participants shall apply to get themselves empaneled in the empanelment process of the department for Jal Jeevan Mission, for award of the work. It is further clarified that No work will be awarded directly to the participants through this EoI. This EoI is only to assess the rate of works, which will be finalized for rate contract by the DWSM District Mungeli

1.15.4 Agreement will be drawn among (1) DWSM and (2) Empaneled participant (NGOs / Self Help Groups (SHGs)/ CBOs/ VOs/ similar Social Development Oriented Organizations/Foundations/Trusts) in the prescribed format duly approved by the of DWSM.

1.15.5 The authority competent to accept the EoI, reserve the right of distributing the work between one or more participants.

1.15.6 The authority competent to accept the EoI, reserve the right of empanelling registered self help groups working in Mungeli District without participating in The EOI with relax norms for essential qualification and technical parameter for work up to 25% of full quantum.

1.15.7 Rate contract shall be valid for 03 years after the approval of DWSM.

1.16 Abnormally Low Bid

An Abnormally Low Bid is one in which the bid price, in combination with other elements of the bid, appears so low that it raises material concerns as to the capability of the bidder to perform the contract at the offered price. JJM may in such cases seek written clarifications from the bidder, including detailed price analyses of its bid price in relation to scope, schedule, allocation of risks and responsibilities and any other requirements of the bid document. If, after evaluating the price analyses, JJM determines that the

bidder has substantially failed to demonstrate its capability to deliver the contract at the offered price, JJM may reject the Bid/Proposal.

1.17 Validity of Proposals

Technical Proposal and Financial Proposal shall remain valid for 180 days from the date stipulated for submission of proposal. A proposal valid for a shorter period shall be rejected by The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli as non-responsive. In exceptional circumstances, The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli may solicit the Bidders' consent to an extension of the period of validity. The request and response thereto shall be made in writing.

1.18 Cost of Bidding

The prospective bidders shall bear all the costs associated with the preparation and submission of their respective proposals, negotiating the contract, visits to Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli and of presentations made to the same office (if any) and Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli in no case, will be responsible or liable for these costs, regardless of conduct or outcome of the bidding process. Please note that these costs are not reimbursable to the bidders.

1.19 Examination of EOI Document

The prospective bidders are expected to examine all instructions, forms, terms and specifications in the EOI Document. Failure to furnish all information required by the EOI Document or submission of a Proposal not substantially responsive to the EOI Document in every respect will be at the Bidder's risk and may result in rejection of the bid.

1.20 Pre-Bid Queries

The bidders may submit their pre-bid queries by e-mail in the e-mail address provided in this EOI document. All queries for the pre-bid meeting are to be sent at its email within 4 days of the publishing of this EOI document. The Bidders are requested to send their consolidated queries to the e-mail only once and further queries sent by the Bidders shall not be entertained. Queries received after this date will not be entertained.

JJM shall receive and may respond to prospective Participant's Pre-Bid queries by way of hosting amendments/clarifications on the website in accordance with the respective clauses of the EOI. JJM may incorporate any changes in the EOI based on acceptable suggestions received in pre-bid queries. The decision of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli regarding acceptability of any suggestion shall be final in this regard and shall not be called upon to question under any circumstances.

1.21 Amendment of EOI Document

At any time prior to the deadline for submission of bids, Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli may, for any reason, whether on its own initiative or in response to the clarification requested by a prospective Bidder, modify, change, incorporate or delete certain conditions in the EOI Document. These amendments shall be posted on the website and these amendments will be binding on all bidders.

1.22 Language of Proposal

The proposal prepared by the Bidder, as well as all the correspondence and documents relating to the Proposal exchanged by the Bidder and Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli, shall be in English or Hindi. Any communication from any Bidder in a language other than English or Hindi shall not be entertained.

1.23 Proposal Currency

Prices shall be quoted in Indian Rupees only.

1.24 Clarification of Proposals

During evaluation of proposals, Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli may at its discretion, ask the Bidder for clarification of its proposal. No response or inadequate response to clarifications asked for shall lead to disqualification of bidder.

Contacting Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli

No Bidder shall contact Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli on any matter relating to its proposal, from time of opening of technical proposal to the time the contract is awarded. If the bidder wishes to bring additional information to the notice of the Office of Mission Director, he should do so in writing. Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli reserves the right as to whether such additional information should be considered or otherwise. Any effort by a Bidder to influence Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli in its decision on proposal evaluation, proposal comparison or contract award may result in disqualification of the Bidder's bid and also forfeiture of his earnest money deposit.

1.25 Office of Member Secretary DWSM Right to Accept / Reject Any or All Bids

Office of Member Secretary reserves the right to accept or reject any proposal, or to annul the bidding process and reject all proposals at any time prior to the award of Contract, without there by incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for Office of Member Secretary's action.

1.26 Penalty Clause

The contract to be executed between Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli and the selected bidder will contain penalty clauses for delay in the implementation schedule to be given with technical proposal as well as failure to comply with the provision of required services during the post-approval phase.

1.27 Authorized Signature

The original and all copies of Technical Proposals and Financial Proposal must be signed by the partner in the firm or the proprietor.

1.28 Performance Security

An amount of 5% shall be deducted from each payment as performance security which shall be refunded six months after the successful completion of entire project.

1.29 Inspection & Modification - Reimbursement for Unacceptable Deliverables

The selected bidder shall be responsible for the completion of all work set out in the EOI Document, Technical Proposal and Contract. All work is subject to inspection, evaluation, and approval by the The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. Should the Member Secretary determine that corrections or modifications are necessary in order to accomplish its intent, he may direct the selected bidder to make such changes. The selected bidder will not unreasonably withhold such changes. Substantial failure of the selected bidder to perform the contract may cause Office of Member Secretary to terminate the contract. In this event, Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli shall require the selected bidder to reimburse monies paid (based on the identified portion of unacceptable work received) and shall seek charges for associated damages.

1.30 Commencement of Services

The selected bidders shall commence performance of services within one week from the date of signing of agreement.

1.31 Suspension of Services

The Office of The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli may by written notice of suspension to the selected bidder, suspend all payments to selected bidder, if the selected bidder fails to perform their obligations in this project.

1.32 Foreclosure

If the The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli does not desire that the professional services are required beyond certain stage, the work assigned to the selected bidder shall be withdrawn after giving him reasonable notice (not less than thirty (30) days) for foreclosure/ termination of the engagement.

Upon foreclosure of this contract, the selected bidder shall take necessary steps to bring the work to a close in a prompt orderly manner and shall hand over all the documents / reports prepared by the Selected Bidder up to and including the date of termination to the The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli, Chhattisgarh. The selected Bidder shall be duly paid the professional fees for the works carried out and services rendered till the date of foreclosure.

1.33 Escalation

No escalation charges or additional amount whatsoever shall be paid to the selected bidder.

Section:- 3 -General Conditions for Proposal

- Hard copy of the proposals in the standard format as provided in Section 06 with required supporting documents submitted under specified time will be accepted. Bidder must add additional documents whatever is required to fulfil the criteria as stated in the EoI for eligibility and scoring criteria. A soft copy of the proposal should be also provided in a pendrive/CD/DVD. If there is any deviation found in the soft copy and hard copy, the submissions provided in hard copy shall be prevail **and financial bid uploaded will final.**
- Applicants can be single entity or a consortium of maximum 2 entities. Either one or both entities must be mandatorily a registered entity. In case of consortium, it should be clearly mentioned in the application letter and authorized signatory should be identified through a notarized Power of Attorney and joint declaration by both entities. In case of consortium, credentials of both entities shall be used for technical evaluation. Any entity either as part of a consortium or individual will not be allowed to submit proposal more than once. A jointly and severally liable agreement and declaration shall be provided to Authority at the time of issuance of workorder/agreement.
- In case of consortium, both the parties should meet the Essential Qualifications as mentioned under Section02.
- A hard copy of proposal along with a soft copy in a pendrive/CD/DVD should be submitted in an envelope addressed to: The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli.
- The sealed envelope should be clearly marked as “Proposal for empanelment as ISA”, EoI number, and date of submission should be clearly mentioned.
- The proposal should provide adequate details about agency's background and working experience. Capacities, skills and experience of working in the community-based water & sanitation sector using participatory skills should be highlighted clearly. The document should state about all the mandatory requirements.
- The agency must enclose appropriate document, as deemed fit as evidence of the information provided in proposal.
- The proposal submitted by agency in the prescribed format shall be the basis for determining the essential qualification.
- The proposal shall be prepared in indelible ink. It shall contain no overwriting, except as necessary to correct errors made by the agency itself. Any such corrections must be initialled by the persons or person who sign(s) the proposals.
- An authorized representative of the agency shall initial all pages, including annexure of the proposal.

- Hard Copies of the proposal along with supporting documents must reach at the address given below on or before the last date and time. Any proposal received after the closing date/ time will not be accepted.
- In case last date for submission of proposal falls as weekend (Saturday/Sunday) or Gazetted Government holiday, the last date for submission of proposal shall be next working day till the originally mentioned time.
- The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli.
- Reserves the right to disqualify/ reject proposal submitted by any agency and/or cancel/disqualify empanelment of agencies at any point of time, without explaining the reason. Likewise, The Executive Engineer, PHED & Member Secretary (DWSM) District Mungeli reserves the rights to amend any provision(s) of Expression of Interest(EoI).
- ISA shall remain associated with their respective villages until the full completion of the schemes/project to receive complete payment and account for any delays within their proposal. Jal Jeevan Mission, Chhattisgarh shall not be liable for delay in implementation of the schemes/projects in the village.
- ISA must implement the activities in complete alignment with the JJM guidelines by Ministry of Jal Shakti, Govt. of India and guidelines issued by Mission Director, JJM Raipur.
- The bidders at their own cost shall indemnify Mission Director, JJM. and Government of India against any loss or claims arising as a consequence of breach of any clause in terms and conditions of the agreement.
- The bidders shall not hold the Mission Director, JJM; and Government of India liable for any event/reason.
- The liability from the bidder's behalf shall be limited to the contract value to be determined at a later stage.
- Force Majeure: The bidders or the Authority, as the case may be, shall be entitled to suspend or excuse performance of its respective obligations under this Agreement to the extent that such performance is impeded by an event of force majeure ('Force Majeure'). Such an event any event or circumstance or a combination of events and circumstances referred to in this Clause, which:
- is beyond the reasonable control of the affected Party;
 - such Party could not have prevented or reasonably overcome with the exercise of reasonable skill and care
 - does not result from the negligence of such Party or the failure of such Party to perform its obligations under this Agreement
 - is of an incapacitating nature and prevents or causes a delay or impediment in performance
 - may be classified as all or any of the following events:
 - a) act of God like earthquake, flood, inundation, landslide, storm,

tempest, hurricane, cyclone, lightning, thunder or volcanic eruption that directly and adversely affect the performance of services by the Implementation Partner under this Agreement; b) industry wide strikes, lockouts, boycotts, labour disruptions or any other industrial disturbances, as the case may be, not arising on account of the acts or omissions of the Implementation Partner and which directly and adversely affect the timely implementation and continue doperation of the Project ;orc) anactofwar(whetherdeclaredorundeclared), hostilities, invasion, armed conflict or act of foreign enemy, blockade, embargo, prolonged riot, insurrection, terrorist or military action, civil commotion or politically motivated sabotage, for a continuous period exceeding seven (7) days that directly and adversely affect the performance of services by the Implementation Partner under this Agreement.

- The affected Party shall notify the other Party of a Force Majeure event within seven (7) days of occurrence of such event. If the other Party disputes the claim for relief under Force Majeure, it shall give the claiming Party written notice of such dispute within thirty (30) days of such notice.
- In case of any dispute between the Parties, either party shall strive to resolve them through mutual discussions and agreement. In case of any issues/arbitration etc. legal proceedings shall be held in Raipur only and legal jurisdiction shall be in courts of law at Chhattisgarh only.

Based on the information provided above, the interested agencies are advised to submit proposal online as well as on hard copies starting from 29-04-2021.

The Executive Engineer, PHED &
Member Secretary (DWSM) District
Mungeli
e-mail Id.: eemun-phe-cg@nic.in

Section:- 4 -Scope of work

To deal with above Jal Jeevan Mission (JJM) has been launched which aims at providing Functional Household Tap Connection (FHTC) to every rural household by 2024. The programme focuses on service delivery at household level, i.e. water supply on regular basis in adequate quantity and prescribed quality. This necessitates planning and implementation of water supply schemes, empowerment of Gram Panchayat/ local community, focus on service delivery, partner with other stakeholders and convergence with other programmes to ensuring the quality of services.

ISAs will play critical role as partners in mobilizing and engaging the communities to plan, design, implement, manage, operate & maintain in-villagewater supply infrastructure. In each phase of the Scheme cycle the role of ISA is important to mobilize the community and the Panchayati RajInstitutions.

The selected ISAs will be empaneled for the duration of Jal Jeevan Mission till March 2024 based on performance review by Mission Director, JJM, Neer Bhawan, Raipur, e-mail Id.:director-jjm@cg.gov.in.

ISAs can be de-empaneled at any time, if their performance is not satisfactory.

NGOs/ VOs/ women SHGs/ CBOs/ Trusts/ Foundations will be engaged as ISAs to play critical role as partners in mobilizing and engaging the communities in the entire process of implementation including planning, designing, work execution, managing, operation & maintenance of in-village water supply infrastructure. DWSSM will engage ISAs from the empanelled ISAs.

Based on the District Action Plan of five years, the number of villages to be covered every year will be identified. These identified villages fall under different categories, viz. villages requiring only last-mile connectivity in terms of distribution network and FHTCs, only IEC campaigns on judicious water use, O&M support, requiring new schemes, etc. and will be grouped for engaging an ISA for handholding support. Accordingly, number of ISAs required every year is identified for each of these categories along with timeline. Each ISA would be responsible for the entire project cycle of maximum 18 months in a block comprising of 40-60 villages at a time for both new and retrofittingschemes.

Depending on the requirement in the district and based on the performance of ISA, next set of 40-60 villages will be given to them after four to six months or engage another ISA. In the district, there could be many ISAs depending upon the need of work to be done and requirement of handholding. Planning should be done in such a manner that JJM is implemented in mission mode and all villages of districts are covered with FHTCs to all rural households by 2024.

ISA to facilitate women participation at all levels of planning, implementation, management, operation and maintenance of in-village water supply systems and contribution.

1.1 FUNCTIONS OF IMPLEMENTATION SUPPORT AGENCIES

ISAs will carry out following functions:

- i.) Facilitate constitution of sub-committee of Gram Panchayat, i.e., GPWSC/VWSC/ Water User's Group, etc. and arrange to build capacities of its functionaries.
- ii.) Handhold Gram Panchayat and/ or its sub-committee, i.e., GPWSC/VWSC/ Water User's Group, etc. in all the functions which includes opening bank accounts, mobilization of community contribution, O&M arrangement, organizing Gram Sabha, organizing meetings of sub-committee, facilitating resolution in Gram Sabha and acceptance of village scheme, facilitating sanitation and greywater management activities, etc.
- iii.) Need assessment of FHTCs and motivate communities to have FHTCs.
- iv.) Act as coordination platform between DWSS and VWSC.
- v.) Use Participatory Rural Appraisal (PRA) tools for community mobilization and carry out need assessment.
- vi.) Assisting the community in water campaigns initiated by Government of India/ state Government.
- vii.) Build awareness on various aspects of water such as rainwater harvesting, artificial recharge, water quality, water-borne disease, water saving, water handling, drinking water source augmentation/ sustainability aspects, etc.
- viii.) Document and upload success stories from villages.
- ix.) Carry out Social Behavioral Change Communication (SBCC) activities.
- x.) Ensure proper IEC activities are done at proper places in villages.

1.2. OUTPUTS TO BE ACHIEVED BY IMPLEMENTATION SUPPORT AGENCIES

The Implementation Support Agencies are required to ensure achievement of the following outputs:

- i. Community Familiarisation & GP Resolution for taking up JJM in all villages.
- ii. Ensuring necessary support from community during Planning, Implementation & Post Implementation Phase of the PWSS being facilitated under Jal Jeevan Mission.
- iii. Constitution/ Registration/ Sensitisation/ Capacity Building of GPWSC/ VWSC/ Water User's Committee/ Paani Samitee etc. & Opening Bank Accounts.
- iv. Preparation of Village Action Plan.
- v. Scheme Monitoring and O&M Methodology.
- vi. Facilitation for collection of CAPEX.
- vii. FHTC Monitoring and O&M Preparedness.
- viii. Providing FHTC to the remaining HHs.
- ix. Finalisation of OPEX
- x. Water Quality Monitoring & Surveillance Plan activities
- xi. Final Report on Sustainability & Documentation of Success stories.

1.3 ASPECT OF SOCIAL MOBILIZATION

Some important aspects in connection with Social Mobilization by ISA activities under JJM, Chhattisgarh are as follows:

Area under ISA involvement: The areas entrusted to the ISAs for social mobilization should be categorized as follows, along with the area-based focus therein:

- a) *Areas for which new schemes are going to be proposed:* In case of areas proposed to be covered with new PWSS, one of the prerequisites is the need of social mobilization to highlight the JJM Approach along with the implementation procedure and O&M modalities thereafter for sustained water supply based on 'Har Ghar Jal' initiative. The existing practices along with field constraints focusing on drinking water security (Availability, Accessibility and Safety) should also be highlighted to fix up the priority areas, which will eventually facilitate effective planning and designing of necessary options of water treatment under the new proposed PWSS.
- b) *Areas with completed schemes/ retrofitted schemes:* In case of localities with completed / retrofitted Schemes, efforts should be initiated for ensuring functionality of water supply services with a sustained focus on effective O&M modalities with ownership by users. If the situation demands, efforts should be initiated for either strengthening of existing O&M modalities or new efforts for a functional O&M initiative. The points of functional assessment should be highlighted to make the beneficiaries aware about the importance of their ownership for a meaningful O&M approach, aiming at sustained water supply services.

Functionality Assessment: Aspects about functionality assessment needs identification of all location specific issues to make the PWSS users' friendly as per desired norms with sustainable services to the community under the command area of the Scheme.

Few options for such assessment of functionality of PWSS might be as follows:

- a. Mapping of all sources in location specific manner, along with a brief overview on them. Focus should be on the raw water source/s for the PWSSs to enable meeting present & future water demands for the entire design period of the Scheme to ensure provision of safe drinking water to every rural households on sustained basis to address drinking water security (availability, accessibility and safety).
- b. In case of surface source dependence, identification of catchment area, along with assessment of up & down stream present / future water ecology / security.
- c. Impacts of water withdrawal, if any, along with assessment of lean period discharge / yield & draw down for GW source etc.
- d. Assessment of area-based GW table over the time, in case of GW based Scheme.
- e. Source based assessment of compatibility between water demand and pumping hours.
- f. Quality assessment of all water sources and impacts of remedial measures adopted, if any. Also, the need for any suitable option for redress in future.
- g. Sustainability of proposed technological options adopted for desired drinking Water Quality, keeping on view of financial load on O&M of the Scheme.
- h. Status of existing approach for O&M and scopes for any new methodology, if any, to make PWSS sustained and users' friendly. Also the necessary energization charges levied for running the PWSS and capacity of Scheme Management to meet the financial load suitably and the scopes from utilizing FFC Grants for the GPs.
- i. Training and orientation of monitoring / repairing squad engaged by the respective

Water Users' Committee, along with desired prompt services from PHED to address the major technical issues, as and when necessary.

- j. Any other location specific issues of importance.

Community Ownership of the PWSS:

Reform Initiatives, in Water Supply Sector, calls for a wholehearted involvement and ownership oriented decisive role of the community in Operation & Maintenance (O & M) of PWSSs, to make it more community friendly and sustained.

Keeping in view of sustainability in water sector, the guidelines for necessary maintenance of water supply arrangements are proposed to be decentralized to the Gaon Panchayat (GP) putting the ownership to the concerned GPs towards support of O&M initiatives.

In the above back cloth, a reform initiative is fostered by the PHED, Chhattisgarh to involve the community in the O&M of rural PWSS, in the interest of sustained levels of services with "Har Ghar, Nal Se Jal" approach as initiated under JJM. Much of the ground-breaking works on community management of PWSS has already started rolling in many areas and such endeavor has succeeded to shift the responsibility and the ownership of the rural PWSS to the community to ensure the smooth functioning of the PWSS. Furthermore, cost recovery for O&M and replacement costs, in part or full, has also led to viable economics and sustainability of the schemes. These initiatives are being institutionalized with formation of Water Users' Committees for each PWSSs and the functioning of such Water Users' Committees shall be monitored by the GPWSC /VWSCs.

Community Contribution:

The community contribution for PWSS will be on two fronts to meet the following:

a) Capital Expenditure @ 5% of the Project Cost:

The provision of community contribution for necessary capital expenditure for each PWSS includes 5% of the Project Cost for the Scheme. However, in lieu of collection of cash as community contribution, there is a most generalized approach adopted in this regard, which encourages the households to construct the necessary platform & soak pits with their own cost as per the prescribed dimensions for the FHTCs facilitated under JJM. In any case, the HHs desires such platform & soak pit to be constructed by the implementing agency, then the concerned HH shall have to deposit the cost either to VWSC or Water Users' Committee as per the necessary estimated cost of construction as decided by the implementing agency.

In any case, the amount as cost of construction of platforms & soak pits against the proposed FHTCs under the PWSS, falls short of the necessary Beneficiary Contribution for the Project Cost (5% of the Project Cost), then the balance amount (Beneficiary Share – proposed Platform Cost) shall have to be borne either by the community (in the form of labour or cash as decided by the District Mission Unit, JJM) or to be met up from FFC Grants to the concerned GPs. The collection of such community contribution shall remain bestowed on the respective Water Users' Committee for the concerned PWSS.

b) O&M expenditure:

The regular monthly O&M expenditures for ensuring functionality of the PWSS shall have to be borne by the beneficiary contribution. Also, the FFC fund will also be released time to time from the concerned GP for such O&M expenditure. Hence the beneficiary contribution shall be determined as based on the monthly tariff pattern, which will be finalized either by the concerned VWSC or the Water Users' Committee, in consultation with the beneficiaries.

O&M Modalities:

The O&M modalities for each PWSS shall bank upon total community involvement. For this purpose, the concerned VWSC shall remain fully responsible, if the command area

of the PWSS is limited to that village. Under the direct supervision of GPWSC, the VWSC may eventually form one Water User's Committee to get the beneficiaries involved directly for taking up O&M activities for the PWSS.

In case the command area of SVS covers more than one village or parts thereof, then the formation of Water User's Committee needs to be initiated to look after the O&M activities in the whole command area of the PWSS, with adequate representation from concerned VWSCs. While forming such Water User's Committees in place, for a particular PWSS, all efforts should be made to form the committee well represented by the beneficiaries within the whole command area of the PWSS, keeping on view of proportionate representation from the areas within the command area of the PWSS. Each Water users' Committee must have adequate women representation too.

In case of MVS, there will be village wise Water User's Committee, who will remain attached with a central committee of Water User's Committee for the MVS.

However, the functioning of such Water Users' Committees for effective O&M approach is going to be supported by the GPWSC, being the sub-committee of the respective GP. Each GPWSC shall be supported with VWSC, formed as per the JJM Operational Guidelines for our State. This system will be strengthened with necessary O&M fund flow mechanism. In case of Council areas, MACWSC shall be the concerned authority, as like as the GP in the non-Council areas.

Considering the Water Users' Committee as a village level entity for development activity, such Water Users' Committees shall be registered under Society Registration Act. But GPWSC, being a sub-committee of the respective GP and the VWSC being headed by the elected GP Ward Member, need not be registered under Society Registration Act.

Household Visit:

The HH visit by ISA will have to facilitate a database on beneficiary HHs with necessary authentication from GP.

PRA Exercise:

Apart from other community mobilization efforts, there should be Focussed Group Discussions on O&M approach for water supply arrangements, Water Handling practices, water wastage, linkage with water borne diseases, ownership of PWSS infrastructure. Apart from that necessary convergence with different stakeholders including line Departments should also be initiated for all necessary field updates and resolving issues suitably.

Water Audit:

ISA should initiate village base Water Audit banking on issues like sustainability, Drinking Water Security (availability, accessibility & safety) utilizing existing data in the division and environmental upkeep of water sources etc. to facilitate evaluation of necessary approach.

In case of river water source based PWSS, the source-based survey is necessary to evaluate whether there is any source pollution like waste dumping in the upstream. So, data collection (both primary & secondary) is necessary to evaluate adoption of course correction activity, for which support from riverbank communities might be helpful. This might help in formulating necessary modalities to ensure sustainable source.

Reporting Mechanism:

The following steps can be used as a reporting mechanism.

a. Submission of detailed report of activities to DWSM on weekly basis: The ISAs should update the respective DWSM on weekly basis through a detailed report about the

activities undertaken. Also, time to time necessary impact assessment, if any, should be reported for field validation.

b. Reporting via web-based application: The SWSM is in process of developing a web-based application for reporting of activities undertaken by them.

c. Co-ordination with DWSM on weekly basis: The ISA is required to co-ordinate with the respective DWSM and plan their activities accordingly on weekly basis. Furthermore, they can also discuss the field challenges faced, with the DWSM for necessary redressal.

DETAILED ACTIVITY & OUTPUT SCHEDULE FOR ISAs

(JAL JEEVAN MISSION) PROBABLE MILESTONES & SUGGESTIVE ACTIVITIES OF IMPLEMENTING SUPPORT AGENCIES TO ROLL OUT JAL JEEVAN MISSION

- | |
|--|
| <p><u>ESTIMATED OUTPUTS</u></p> <ol style="list-style-type: none"> 1. All HHs familiarized on JJM and Gram Panchayat Resolution Passed. 2. All the GP/ VWSC Registered (as deemed necessary), Trained & Bank Accounts opened. 3. All Village Action Plan Prepared & Approved in Gram Sabha/ Village Community Meeting (for Council areas). 4. Water User's Committee formed for each PWSS for its O&M & necessary monitoring. 5. Community Ownership of Scheme through GP/VWSC. 6. All HHs contributed towards Capex in terms of Cash/ Kind/Labour. 7. All HHs provided with FHTC and O&M Plan developed for the PWSS. 8. All HHs have been ensured with Drinking Water Security. 9. All HHs oriented on the importance of monthly tariff & responsibility sharing with Water User's Committee. 10. All women/community groups formed for WQM & SP. <p>Final Report on Functionality submitted & Success Story Documented.</p> |
|--|

I. No.	Milestones and Key Activities	Activity details	Support/Inputs Required/Convergence	Responsible Department/Officials
(A) PLANNING & MOBILIZATION PHASE (3 Months)				
1	Monitoring & FTK Training of Women Groups			
1.1	Community Familiarization Exercises on approved work.	ISA should conduct a detailed Mapping activity of Proposed pipe water supply in the village with Community Members. (1 Nos.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of Meetings	BRCC/ CRCC to supervise the Planning & conduct of Community Familiarisation exercise

1.2	Training of Women FTK Groups.	ISA should facilitate trainings of Women FTK Groups, identified & formed, with a focus on need based field requirement.	Presence & Support from DLL Functionaries in FTK Trainings.	ISA Co-ordinator to supervise the Planning & conduct of Training on O&M.
(B) IMPLEMENTATION PHASE (10-12 Months)				
2	Appropriate Ownership for the scheme			
2.1	Ownership of Scheme by GPWSC/ VWSC	ISA to facilitate detailed meeting for necessary update and intimation of concerned Work Order for implementing a scheme and a request for facilitating the list of beneficiary HHs for FHTC within the Command area of the scheme. As well as the issue of initiating all necessary steps to ensure meaningful O&M of the Scheme in future, after formal handing over the same to GP, should be discussed at length.	Presence of Sub Engineer as well as District IEC Consultant/ ISA Co-ordinator from PHED	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
2.2	Meeting with Community members on constructional activities & technical components of PWSS.	ISA to conduct Community Level Meeting with the goal of providing details on technical components of PWSS & Monitoring Process of the same. (2Nos.)	Presence of Sub Engineer as well as District IEC Consultant/ ISA Co-ordinator from PHED in a sample number of meetings	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
2.3	Display of Contractor's details and Work Value as well as Contact Person & Contact No. for grievance redressal.	ISA with the help of PHED officials should ensure upload of details of contact person for grievance redressal as well as details of contractor.	Support provided by BRCC/CRCC.	

3	Collection of CAPEX			
3.1	IPC for community contribution.	ISA to conduct FGD for creating awareness about community contribution. (4 Nos.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of FGDs.	BRCC/ CRCC to act as a supervisor & take the responsibility of the Planning & conduct of FGD at Village Level.
		ISA to conduct IPC on Community Contribution & its benefits. (All HHs)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of HHs	BRCC/ CRCC to supervise the IPC at HH Level.
3.2	Cluster Level women meeting	ISA to conduct Cluster level women meeting in different pockets related to Community Contribution. (4Nos.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of PRA Exercises	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
3.3	Cluster Level Group Meeting	ISA to conduct Cluster level meeting in different pockets related to Community Contribution and decide upon the means of community contribution i.e. cash/kind/labour.(4 Nos.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of PRA Exercises	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
4.4	Collection of Community Contribution & involvement of Water User's Committee.	ISA to ensure Community contribution for CAPEX.		

4	FHTC Monitoring, O&M & OPEX Preparedness			
4.1	IPC for FHTC&OPEX	ISA to Conduct IPC on components PWSS, Opex of FHTC involvement of WUC. (All HHs.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of HHs	BRCC/ CRCC to supervise the IPC at HH Level.
		ISA to conduct Open miking in entire village on importance of Water Quality.	ISA Co-ordinator & IEC Consultant to support in planning for Open Miking. The Districts can prepare audio clipping for the same & get approval from State.	BRCC/ CRCC to act as a supervisor & take the responsibility of the Planning & conduct of Open Miking at Village Level.
		ISA to distribute leaflets on the components of PWSS & Opex of FHTC as well as importance of Water Quality. (All HHs)	Leaflets for distribution to be provided by PHED State Office.	BRCC/ CRCC to supervise the distribution of leaflets by field level enumerators.
4.2	Routine Monitoring & O&M Plan Preparation.	ISA to conduct Routine Monitoring activity through (1 Nos.) ISA to conduct community level meeting on O&M and prepare a tentative Monthly Plan for the same including collection of monthly tariff by WUC & Routing of FFC Grant from GP. (4 Nos.)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of Meetings	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
4.3	Capacity building exercises for O&M works.	ISA to conduct training of the identified Manpower on O&M (1 Nos.)	PHED to Provide Resource Person for the Training Session.	IEC Consultant/ ISA Co-ordinator to take the leadership of planning & structuring the Workshop along with ISA.
4.4	Training on Financial Management & Record keeping	ISA to conduct Training of VWSC/ GP on Financial Management & Record keeping. (1 Nos.)	PHED to provide Resource Person for the Training Session.	IEC Consultant/ ISA Co-ordinator to take the leadership of planning & structuring the Workshop along with ISA.

C. POST IMPLEMENTATION PHASE (3 MONTHS)				
5	To ensure Drinking Water Security for all			
5.1	IPC for FHTC to all HHs.	ISA to conduct IPC for demand generation on the left out Households (if any)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of HHs	BRCC/ CRCC to supervise the IPC at HH Level.
		ISA to conduct FGD with community members (those who have opted & those not) for demand generation among the left-out HHs (If any)	Presence of District BRCC/ CRCC & Swachhagrahis from PHED in a sample percentage of FGDs.	BRCC/ CRCC to act as a supervisor & take the responsibility of the Planning & conduct of FGD at Village Level.
		ISA to conduct assessment & routine monitoring with community members for providing FHTC to the left-out HHs. (1 Nos.)		BRCC/ CRCC to act as a supervisor & take the responsibility of the Planning & conduct of assessment & Routine Monitoring

6	Finalisation of Opex			
6.1	IPC on Importance, Finalisation Opex	ISA to conduct Group meeting with the community members on involvement of GP for Collection of OPEX/ Monthly Tariff and utilisation of FFC Grant.(1 Nos.)	Presence of District IEC Consultant/ ISA Co-ordinator from PHED in sample percentage of Meetings.	EE to act as a manager & supervise the planning of meetings along with IEC Consultant/ ISA Co-ordinator, ISA & AE, Sub Engineer.
		ISA to conduct a brief training session with the PRI members and User Committee Members on Book-keeping. (1 Nos.)	PHED to provide Resource Person for the Training Session.	IEC Consultant/ ISA Co-ordinator to take the leadership of planning & structuring the Workshop along with ISA.

7	WQM & SP

Proposed Team

The proposed team structure for the assignment to be deployed by ISA in each group of Gram Panchayats (Approx. 40 villages), would be as following:

Team Composition:

S. N.	Post	Qualification & Experience	Experience	No.	Man Month Input Required (for one cluster of Cluster of 40 villages)			
					Planning & Mobilization on Phase	Implementation Phase	Post Implementation Phase	Total Man Months Required
Key Staff:								
1	Team Leader	Graduate/Postgraduate	5 Yrs. (Rural/Community Development. Preference to experience in Water & Sanitation)	1	03 Months	12 Months	03 Months	18 Months
2	Coordinator	Graduate	3-5 Yrs. (Rural/Community Development and Water & Sanitation)	3	03 Months	12 Months	03 Months	18 Months
Support Staff:								
1	Financial Assistant	B.Com.	2-3 yrs.	1	03 Months	12 Months	03 Months	18 Months
2	Community Worker	Literate and having good communication Skill	03 years	8	03 Months	12 Months	03 Months	18 Months

Note:

- Proposed structure is based on minimum basis. ISA can deploy a bigger team as per work requirement.
- ISAs will be required to submit weekly report clearly stating the progress during the month against the activities proposed for the month. Soft copy of the week reports should reach the DWSM/SWSM designated person before close of business (COB) of the last working day of the week. The hard copy of the weekly report should reach the respective SPMU/DPMU office before COB of the 1st working day of the week.
- Even after getting a second allotment of villages, ISA must continue to deploy the same resources as committed in the already allotted village. In summary, ISA shall not be allowed to deploy same resource set for more than 1 set allotted village group.
- The above proposed number of resources is the minimum requirement and ISAs must deploy the required number of resources to meet their targets and requirements of the project.

Section:- 5 -PaymentNorms

1. The contract with the ISAs would be for the Planning & Mobilization, Implementation and Post Implementation Phase only. Each ISA will have to achieve the specific Payment Linked Deliverables (PLD) designated for each phase. Payment to the agencies will be made only for those activities and milestones, which have been done/achieved bythem.
2. Rate quoted as perbelow:

S.No.	Name of District	Rate Quoted per household
1.	

Rate per Household inclusive GST

For areas under all the districts of ChhattisgarhFor every village:
Rs. x (percentage allotted to the milestone) x No. of
Households covered .

3. The required documents, reports, proofs etc. for the payment of quarterly bills raised by ISAs should be decided by DWSM and that **will be specifically mentioned in executed agreement between DWSM and ISA.** All activities claimed to be performed by the ISA for payments/achievement of milestones should be accompanied by time and date stamped photographic evidences and signatures of all participants and verified by Gram Panchayat along with a declaration to this effect accompanied by a Government recognized proof of identity andaddress.
4. The ISA will submit the bill for the payment to DWSM. All such bills should be accompanied by the required documents, reports, proofs etc. mentioned in executed agreement, failing which the scheduled payments would not be processed. The report should also comment on the status of the Payment Linked Deliverables (PLD) slated for of the schedule.
5. Special Audit of agencies may be conducted by State Water and Sanitation Mission/District Water and Sanitation Mission, through authorized CA firms, if required.
